Eurobodalla Shire Council appoints new General Manager

Mr Paul Anderson has been appointed to the position of General Manager of Eurobodalla Shire Council. He will take up his role at the end June, when Jim Levy retires after eleven years as council's most senior officer.

Mr Anderson has been the General Manager of Lithgow City Council since September 2005 and has many years of high-level experience in local government, including five years as Director of Planning and Environment Services at Tamworth City Council.

Born in Sydney and raised in Dubbo, Mr Anderson has tertiary qualifications in planning, engineering and environmental science, as well as an MBA from Deakin University.

Mayor Neil Mumme describes Mr Anderson as having a distinguished track record in major project management and very strong financial management experience.

Interviews for the General Manager's position were conducted over two days last week by all nine councillors and a community representative.

Addendum to media release

Council wishes to correct the statement referred to in the above media release regarding Mr Anderson's qualifications.

There was an obvious error in the qualification referred to in the release. It should have in fact read: "Mr Anderson holds a Graduate Diploma of Local Government Management from Deakin University."

Council apologises for any misunderstanding this may have caused.

Fergus Thomson

Mayor
