SEPP 1-OBJECTION FORM

Request for variation to development standards under State Environmental Planning Policy (SEPP 1)

Any application which seeks to vary a development standard of the Local Environmental Plan 1994 or any other environmental planning instrument requirement must be supported by a written request. In seeking a variation to one (or more) standard, you must be able to demonstrate the following:

1. The development standard to which the SEPP 1 objection applies.
2. The objectives of the applicable zone.
3. The underlying objectives of the applicable development standard.
4. Whether compliance with the development standard is consistent with the aims in Clause 3 of SEPP 1.
5. Reasons given to support the variation.
6. Reasons why compliance with the development standard is unreasonable or unnecessary in the circumstances of the case.

It is not appropriate to request Council to vary a development standard for economic reasons, to achieve a higher density (which may be out of character with the surrounding area), or to enable a "standard design" to fit on the site. The request must establish the need for the variation based on the objectives of the zone, the constraints and attributes of the site, while considering the underlying objective(s) of the relevant development standard or instrument requirement. Applications that cannot reasonably establish these criteria will not be supported by Council. (SEPP 1 is attached for your reference).

This form can be used as the basis of a SEPP 1 objection. Before completing this form, you should discuss any variation sought, including the underlying objective, with Council's Environment & Development Department. This will assist Council in making a speedy assessment of your request, without the need to seek further information.
